

EDUCATION MATTERS

School picnic is always a great success

Tetherdown School in Muswell Hill has held an Annual Family Picnic for a number of years which helps children, their families and staff foster a school community.

Tetherdown Primary School's Annual Family Picnic which was held on the Fortis Green Reservoir, was once again a smashing success.

This cherished tradition brings together children, parents and teachers for a day filled with laughter, bonding and plenty of delicious picnic treats.

The annual event's main goal is to foster that warm, community spirit we all treasure at Tetherdown.

It's also a chance for parents to make new friends within the school environment, for children

to mingle with peers from different year groups, and for teachers to introduce themselves to the parent community outside the classroom, proving they're as human as the rest of us.

This year, we were all thrilled to have Sam the Juggler join the fun.

Sam dazzled everyone with his incredible skills, keeping the children (and a few curious adults) entertained with his gravity-defying tricks.

The Annual Family

Picnic is so much more than just a day out; it's a vital part of what makes Tetherdown School such a special place.

Seeing everyone come together - laughing, sharing stories and watching the children play - reminds us why we're so proud of our school community.

Here's to many more school events filled with joy and friendship.
